Via Privata Cefalù, 26, Milan
Lombardia Italy

InCheck Inventory Report - January 2020

Introduction

The ZDHC InCheck report, a new universally accepted chemical inventory standard for input stream management, is an easy to read report of chemical inventory that provides suppliers with a benchmark score of their ZDHC MRSL conformance. A ZDHC InCheck report can be printed or shared electronically via PDF with customers and other stakeholders.

It provides a universal way for suppliers to check and understand their level of ZDHC MRSL conformance. Suppliers will get clear results and guidance to improve the quality of their chemical inputs, assure their customers of ZDHC MRSL conformance and grow their business.

131 This Supplier has uploaded 131 products for the January 2020 inventory.

131 131 or 100.00% of this Supplier's inventory products are in the ZDHC Gateway.

131 100.00% of Products in the January 2020 inventory are conformant with the ZDHC MRSL.

Inventory Product Conformance

● Not Evaluated - 0% ● Conformant - 100.00%

ZDHC MRSL v1.1
● Level 1 - 7.63%
● Level 3 - 92.37%

Not Evaluated - Products are not found in the ZDHC Gateway. Contact your Formulators to upload the products to ZDHC Gateway.

Registered - The chemical formulator has registered its company and uploaded the product details along with a valid SDS to the ZDHC Gateway. There is no MRSL conformance expected or implied by this level.

Level 0 - The chemical formulator and product SDS are registered in the ZDHC Gateway and the formulator has submitted a self-declaration of ZDHC MRSL.

Level 1 - The chemical formulator has provided a thirdparty review of documentation or an analytical test report for the product where the data meet the QA and QC requirements in the MRSL Conformance Guidance to be accepted as evidence of conformance.

Level 2 - All requirements for Level 1 passed and passed a review of the product stewardship practices of the chemical supplier by the third-party certifier.

Level 3 - All requirements for Level 2 passed and passed a site visit to the chemical formulator to evaluate their product stewardship first-hand.
