Via Privata Cefalù, 26, Milan
Lombardia Italy

Performance InCheck Report - May 2021

Introduction

The ZDHC Performance InCheck report is a universally accepted chemical inventory overview for input chemical management. It is an easy to read report of chemical inventory that provides suppliers with a numerical overview of individual products certified against the different versions and levels of the ZDHC MRSL (current or previous) during a period of time.

Inventory Product Conformance

Not Evaluated - Products are not found in the ZDHC Gateway. Contact your Formulators to upload the products to ZDHC Gateway.

Registered - The chemical formulator has registered its company and uploaded the product details along with a valid SDS to the ZDHC Gateway. There is no ZDHC MRSL conformance expected or implied by this level.

Level 1 - The chemical formulator has provided a thirdparty review of documentation or an analytical test report for the product where the data meet the QA and QC requirements in the ZDHC MRSL Conformance Guidance to be accepted as evidence of conformance.

Level 2 - All requirements for Level 1 passed and passed a review of the product stewardship practices of the chemical supplier by the third-party certifier.

Level 3 - All requirements for Level 2 passed and passed a site visit to the chemical formulator to evaluate their product stewardship first-hand.

Next Steps

1. Contact your chemical formulators to ensure that they acknowledge and understand ZDHCs MRSL and declare their products through the ZDHC Gateway. We make this easy for you, [here](#)
2. Ensure your staff are aware of tools such as the ZDHC Gateway Chemical Module, which is an easily-accessible tool to help identify and purchase high performing, safe chemicals
3. Download and share this report with all of your staff and customers to build conformance and grow your business
4. Contact ZDHC Foundation with any questions at gateway@zdhc.org or visit the [ZDHC website](#)
5. Search for alternative chemical products which are published on ZDHC Gateway as ZDHC MRSL Level 1, 2, or 3 by utilizing the search engine
